

Technical Data Sheet

Product: Aerating Jets
Product Code: 25 Series

- NCA's 25 series aerating of brass jets provide a white foaming spray and are designed to operate out of water.
- NCA recommend suction strainer be used to ensure optimum display.
- Use NCA's Adjustable Flanges (refer to Technical Data Sheet – 2-AF Series) where angle of vertical adjustment is required.
- Models available:

Model	25-00-25	25-00-32	25-00-40	25-00-50	25-00-80
Thread size (bspf)	1"	1 ¼"	1 ½"	2"	3"
Stream size (mm)	25	32	38	51	76
Overall height of Jet (mm)	153	165	210	229	292
Suction Strainer hole size (mm ²)	1.5	2.5	3	4	5

Performance:

Model	25-00-25	25-00-32	25-00-40	25-00-50	25-00-80	
Display Height (M)	Flow (lpm)	Flow (lpm)	Flow (lpm)	Flow (lpm)	Flow (lpm)	Pressure at Jet (M)
1	40	59	88	106	243	4.4
1.5	48	69	99	129	273	5.8
2	53	76	110	152	303	7.4
3	65	88	129	194	379	10.7
4		99	144	235	436	13.2
5			163	269	477	15.9
6				303	530	18.3
8				364	621	22.0
10				424	720	26.3
12				494	910	29.9
