

Technical Data Sheet

Product: Peacock Jet
Product Code: 26-AB-32

- NCA's Peacock jet is manufactured from bronze and is used to create a dynamic wall of water when used in multiples. Space jets to have 20 ~ 25 % overlap of spray.
- Unique geometry display can be created when orienting the fan shape in a herringbone pattern. Locate in sunny position for optimum brilliance.
- Multiple displays create a moderate noise level and will tolerate mild breezes. Wind control should be employed in moderate to strong wind conditions.
- A damping element will be required in small pool to prevent surging action.

Stream height (M)	1.2	1.5	1.8	2.5	3.0	3.6
Flow (litres per minute)	300	360	380	440	500	535
Pressure (M)	1.5	2.1	2.5	3.4	4.0	4.9
Stream Spread (M)	1.5	2.5	3.0	3.6	4.6	5.5
Stream thickness (M)	0.47	0.6	0.8	0.91	1.2	1.5
