

Technical Data Sheet

Product: Drain Base

Product Code: DFB Series

- NCA's Drain Bases (DFB) are cast bronze fittings designed for installation into concrete to serve as a drain for large size pools.
- Models are available for connection to 2" BSP (DFB50), 2½" BSP (DFB65), 3" BSP (DFB80), 4" BSP (DFB100) and 6" BSP (DFB150) waste.
- All Drain bases have female BSP threads, except the DFB150 which accepts copper tube.
- Refer to Technical Data Sheet (TDS) on Membrane Drain Bases for pools which require a water proof membrane. The DFB drain bases are not suitable for membrane applications.
- Options available for these Drain Bases include:
 - Grate (DFB-GRATE) as shown in the above picture;
 - Brass Plug (DFB-PLUG) fitted with O ring to achieve water proof seal, as shown in the above picture;
 - Two models of Anti Vortex strainers (AVD80 and AVD100) – refer to TDS on Anti Vortex Strainers.
 - Two models of overflows (SW80 and SW100) – refer to TDS on Standing Wastes.

- The picture above shows the DFB150 drain base complete with a DFB150 Grate.
- A DFB150 dimensions are 248mm Diameter and is 85mm high. The DFB150 is designed to slide onto a 150mm / 6" copper pipe, supplied by others, and brazed.
