

# Technical Data Sheet

## Product: Into Pool Connectors

**Product Codes: Refer to table below.**

- NCA's manufacture two types of "Into Pool "Connectors" to cater for both fluid and electrical requirements of water features.
- NCA's "Into Pool Connectors" come in a range of sizes – refer to the tables below for details.
- Inter Pool Connectors are often referred to a cast in items, as they are sited as part of the layout of the water feature, prior to the pouring of concrete.
- Inter Pool Connectors are made from copper tube with the appropriate brass connections. Around the centre of each connector is a swell-able anti-weep sealant, which anchors and seals these connections within the resultant structure.
- Length is usually 300mm, but can be manufactured to suit the installation.

### Fluid type Into Pool Connectors:

Model No:	Description	Thread size fitted each end
LU-J71	¾" Into Pool Connector - Fluid	¾" BSPM
LU-J72	1" Into Pool Connector - Fluid	1" BSPM
LU-J73	1 ¼" Into Pool Connector- Fluid	1 ¼" BSPM
LU-J74	1 ½" Into Pool Connector - Fluid	1 ½" BSPM
LU-J75	2" Into Pool Connector- Fluid	2" BSPM
LU-J76	3" Into Pool Connector- Fluid	3" BSPM
LU-J77	4" Into Pool Connector - Fluid	4" BSPM

### Electrical type Into Pool Connectors

Model No:	Description	Thread size Into Pool	Conduit socket Out of Pool (mm)
LU-J71E	¾" Into Pool Connector - Electrical	¾" BSPM	20
LU-J72E	1" Into Pool Connector- Electrical	1" BSPM	25
LU-J73E	1 ¼" Into Pool Connector- Electrical	1 ¼" BSPM	32
LU-J74E	1 ½" Into Pool Connector - Electrical	1 ½" BSPM	40
LU-J75E	2" Into Pool Connector- Electrical	2" BSPM	50
LU-J76E	3" Into Pool Connector- Electrical	3" BSPM	80
LU-J77E	4" Into Pool Connector- Electrical	4" BSPM	100
