

Technical Data Sheet

Product: Membrane Drain Bases
Product Code: MDFB Series

- NCA's Membrane Drain Bases are cast bronze fittings designed for installation into concrete pools with membrane lining.
- Models are available for connection to 2" BSP (MDFB50), 3" BSP (MDFB80) and 4" BSP (MDFB100).
- All Drain bases have female BSP threads.

- Membrane drain bases are made of cast bronze consisting of a base for connection to outlet, a ring to fit over the membrane, a locking ring and pool outlet which can have its height range adjusted – refer to diagram and picture.
- Options available for these Drain Bases include:
 - Grate (DFB-GRATE);
 - Brass Plug (DFB-PLUG) fitted with O ring to achieve water proof seal;
 - Two models of Anti Vortex strainers (AVD80

and AVD100) – refer to Technical Data Sheet (TDS) on Anti Vortex Strainers.

- Two models of overflows (SW80 and SW100) – refer to TDS on Standing Wastes.
